STREET TRIPLE

This motorcycle truly epitomises the spirit of Triumph. Agile, fun, punchy, brimming with character, up for anything and great to look at.

Its 675cc three-cylinder engine bubbles, growls and wails as you wind it up through the gears and, thanks to an all-new chassis, the handling is now even sharper and more intuitive than it's ever been. And that's saying something.

The bodywork is new too. Colours appear as sharp slashes down the length of the bike from the slender tail section to the lean-looking tank, narrow radiator side cover and the front mudguard. Neatly finished by the striking new wheel design.

You'll find yourself using the Street Triple for anything from track days to traffic busting.

We've created a machine that can turn the dullest regular commute into pleasure trip.
